CANE COLLECTION 2018

by podium

## **STATEMENT**

Cane Collection is an avid explorer of Southeast Asian materials. We traverse the lush region's history in furniture craftsmanship, procuring artisanal heritage and binding them to contemporary aesthetics. Our collections weave humble beginnings into timeless elegance, all the while retaining whimsical rawness of the material that makes every piece of furniture by Cane Collection a pleasant addition to your space.

MANUFACTURER

2

3

Thailand's long standing recognition in furniture manufacturing is largely built upon decades of refined craftsmanship, experience and commitment of Podium Manufacturer. The accumulated knowledge and experience have led us to start branding our furniture after our growing visions.

We understands wood - its beauty and durability. Our craftsmen approach wood with delicate eyes that see unique creations waiting to be birthed from raw material.

Podium is proud to present  
Cane Collection.

#### ABOUT COLLECTION

Birthered thousands of years before popularized during the Victorian height of the British Empire, caning is one of the most ancient furniture making techniques. This 2016 rendition of caned furnitures by Cane Collection was envisioned by **Atelier 2+** and materialised by the meticulous hands of **Podium Manufacturer**.

Rarely does a material expresses a strong sense of place while showcasing elegance and comfort, simultaneously. Caned furniture is one such rare occurrence.

The collection aims to insert the still beauty of contemporarily decorated space with a warm lightness that radiate life and vibrancy. The unique airiness of caned surface work as a conduit of light and air, allowing these elements a freedom of movement not found through other types of furniture surface material.

**CANE**

The heaviness of thousands of years in heritage of this material contradict its everlasting visual lightness. Caned surface allows light and air to flow through the furniture while casting fine patterned shade across the furnished space.

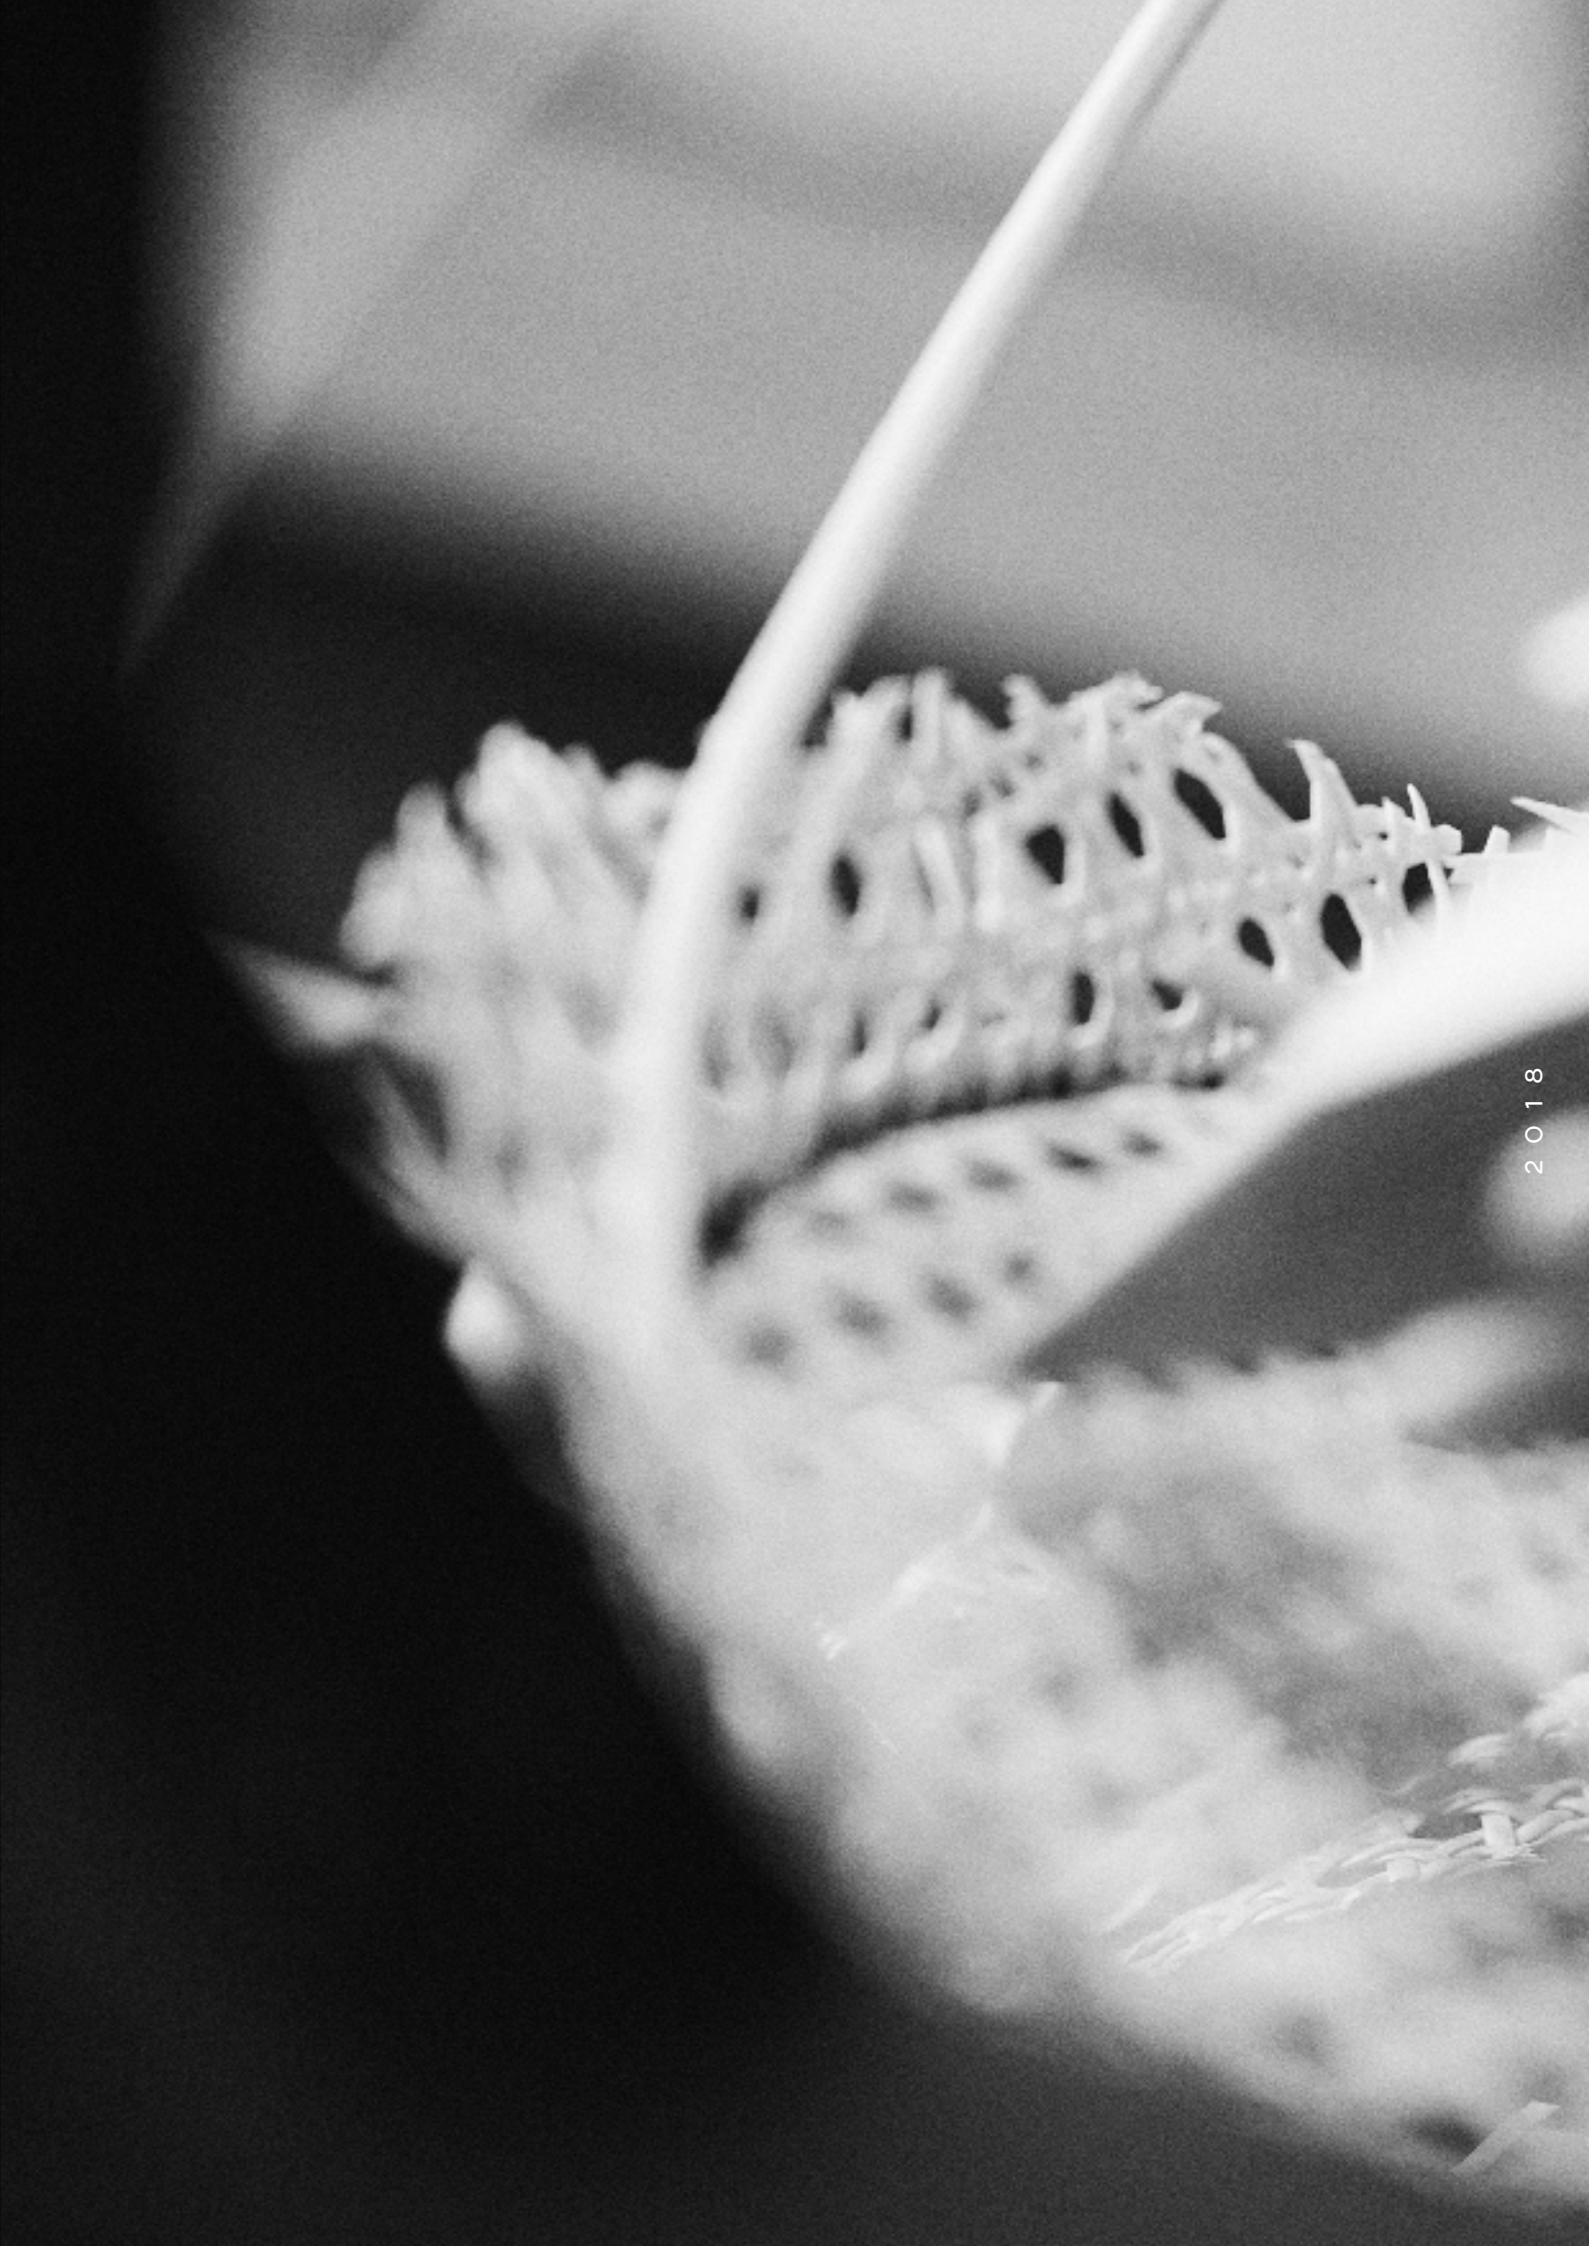

**WOOD**

Complete FCC sustainable and naturally grown solid wood. The material provides versatility in wood bending needed in curving. Solid structured and vivid when colored.

Every product in this catalogue  
is available in walnut.

Cane Collection is introducing walnut into its artisanal repertoire in 2018. The tightly swirling pattern lends to any piece a classical warmth that epitomizes wood furniture.

**DESIGNERS**

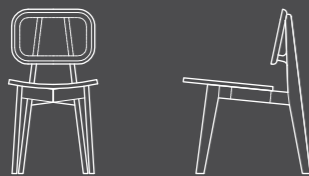

With sensibility stemming between the subjectivity of fine art and objectivity of architecture, **Atelier 2+** Studio's approach towards furniture design reaches beyond the scope that dictates furniture as a stand-alone product into the realm that articulates furniture design as a tool for shaping user's experience in a furnished space.

Composed of Thai-born and Swedish-trained **Ada Chirakranont** and **Worapong Manupiatpong**, Atelier 2+ Studio is a Bangkok based creative studio with international recognition in architecture, art, craft and design.
