

SIMPLICITY IS
THE ULTIMATE
SOPHISTICATION

CURIO[®]

ABOUT US

CURIO was established as a result of the accumulation of experiences and expertise in designing and producing furniture and home decorative items. Our products do not only have good design, but also have excellent quality.

Wood is the main material that we have carefully selected for creating quality wood products. Because we have special skills in wood working. We have continuously innovated our wood products to look more valuable in both appearance and touch. We intend to print out that the worthy craft products are not simply built up by any wood craftsmen without preciseness and steadiness. Our craft products are carefully built by the machines in our factory. These products not only look great but all pieces are built up with precision. And the machines need to be controlled by skilful wood craftsmen

CURIO products will be used by everyone as a part of daily life without any questions. So, we design CURIO products to be distinctly simple, unsophisticated and not over reformative. We believe that "Simplicity is the Ultimate Sophistication". We desire to produce furniture that is not merely an art piece for display but can be touched and used by everyone. Hence, our furniture is good function to use it at ease.

We never overlook any details of our products. We are attentive to every process starting from designing, producing, fitting and final touching for the beauty. These processes are necessary for our products as they can give mental values that you deserve to achieve from every piece of CURIO products.

FIN side chair
620 x 510 x 790h mm.
ash wood / blackrest&seat : black leather /
walnut wood

FIN armchair
620 x 510 x 790h mm.
